## Vision

The Voice for Public Health in Arizona

## Mission

A non-profit, professional organization working to improve the public's health and to achieve health status equality for all Arizonans through advocacy, public education, and professional development.

## Conference Goals

To describe the relationship between how a community is physically designed and the patterns of physical and nutritional behaviors of its residents.

To offer strategies as to how urban and rural planners and public health practitioners can work together to improve the public's health.

To provide new research information relating to the effectiveness of nursing home visitation programs.
